

Dear Ladies and Gentlemen,
dear business partners,

COVID-19 is a challenge for us all. For you as a business partner as well as for us as a company. Even long before the current measures of the Bavarian state government and the federal government to contain the spread of the Covid-19 virus were put in place, haacon hebetechnik gmbh handled the situation carefully and responsibly. We are doing everything humanly possible to continue to guarantee the quality of our services.

To cope with this global situation, we have adapted our production and working methods.

The welfare of our employees is of course our top priority. We have introduced precautionary measures for all employees and visitors who enter our plants and branches. We have adjusted our production times to minimise the spread of possible infections.

At the present time, we still have a sufficient supply of parts and raw materials, which is the basis for our extensive and broad range of products; unfortunately, however, we cannot rule out future material supply bottlenecks.

Our sales staff can be reached during normal business hours. Our sales representatives in Germany, Austria and France are currently working in their „home offices“.

Our non-production departments at our Freudenberg-Kirschfurt and Großheubach sites are manned. Of course the management is also available for you.

We will all have to face the economic challenges of the coming days, weeks and months. But we will not disregard the virtues of „the respectable merchant“. These professional-ethical principles also include the mutual obligation to adhere to agreed payment terms.

Our employees work hard every day to provide you with the service, quality and reliability that you have come to expect from haacon over decades. We are proud to be able to offer you this service even in times of crisis.

We strive to harmonise health care for our employees and the economically sound continuation of our company as much as possible.

Partnership with our suppliers and customers will prove its worth even in these difficult times.

We wish you strength, prudence and health to overcome the enormous challenges in this health and economic crisis and remain

Sincerely yours

Miroslava Lotz und Thomas Lotz

Owners and Managing Director of haacon hebetechnik gmbh
